

IMPLEMENTATION ASSESSMENT · POWERED BY INFINIUM

The Quantexa Benchmark

Know exactly where your Quantexa implementation stands — and how to sustain and scale it.

An eight-week, evidence-based assessment of your Quantexa deployment. We work across 750+ structured questions and four focus areas to score where you are today, then hand you a documented report and a prioritised roadmap that builds toward self-sustainability.

8 WEEKS · END-TO-END	750+ STRUCTURED QUESTIONS	4 KEY FOCUS AREAS	1 REPORT + ROADMAP
--------------------------------	-------------------------------------	-----------------------------	------------------------------

FOUR KEY FOCUS AREAS

Platform Maturity How well the deployed platform, data and models are configured, governed and put to work.	Resource Capability The skills, roles and knowledge your teams hold to run and evolve the platform independently.
Testing Practice Rigour and coverage of testing across models, entity resolution and each release cycle.	Project Delivery Governance, planning and delivery discipline behind the implementation programme.

HOW IT WORKS

◇ 01 · ASSESS WEEKS 1–6 Structured surveys and interviews across all four areas, scored and polarity-corrected.	◇ 02 · REPORT WEEK 7 A documented report — findings, benchmark scores and evidence you can act on.	◇ 03 · ROADMAP WEEK 8 A prioritised roadmap that steers your teams toward self-sustainability.
